

Sectra IEP with Anyone

Recipient FAQ

IEP with Anyone

You should receive an e-mail with a link to log in and download your images. If you have not received the e-mail check the junk or spam folder within your e-mail client, it may be in there.

Retain the e-mail you have been sent as you need that to access the system.

Once logged into your dashboard you to see any packages that are sent to you and download them to your desktop for viewing, as well as being able to securely forward them on to other recipients e.g. medical experts.

Type	Dir.	Date	Patient name	Institution	Messages	Status	Actions
Transfer	In	03/12/2018 18:44	Connor, Flake	North Tees Hos...		Complete	View Download Forward Decline
Transfer	In	28/11/2018 10:34	Wallin, Anita	North Tees Hos...		Complete	View Download Forward Decline
Transfer	In	27/11/2018 15:17	Wallin, Anita	North Tees Hos...		Complete	View Download Forward Decline

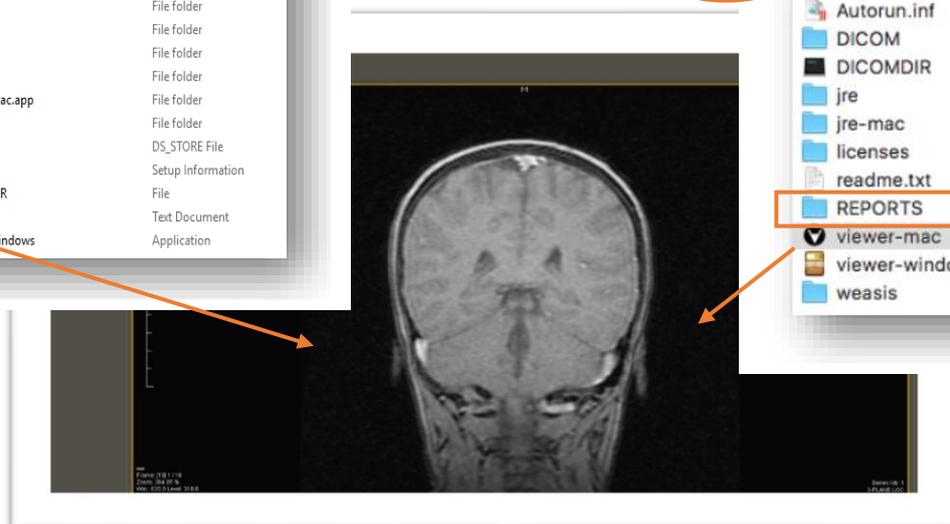

If reports have been sent along with the images they will be in a folder called reports.

FAQ

I have an iPad – am I able to use this with IEP with Anyone?

You will be able to view the images online for 14 days, but you will not be able to download the package for long term storage. You will require either a PC or MAC to download the zip file to as that is not supported on iPad or Mobile phones.

I am unable to view images within the downloaded package on my MAC

There is a known issue with MAC versions from Sierra onwards that blocks the viewer from opening. We are working to find a solution to this but in the mean time you will need to use a Windows PC.

I'm unable to launch the viewer

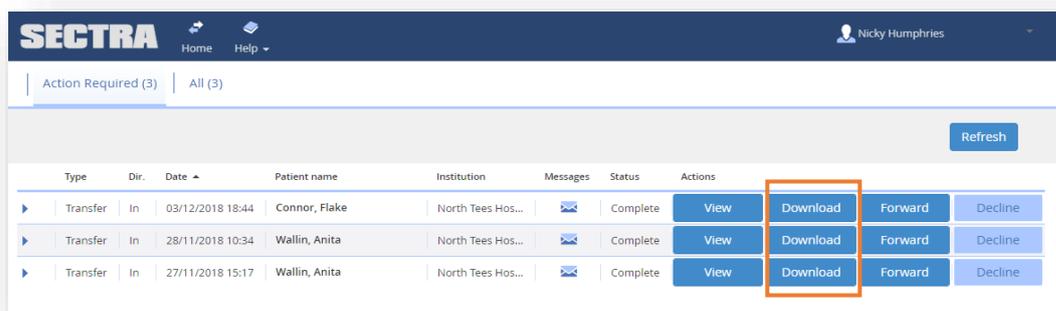

If you are unable to launch the included viewer, the package you downloaded includes a DICOM DIR file, which you can point a third-party viewer towards to view the images, and a DICOM Folder that contains the DICOM files.

If you are accessing the images as a company rather than as a patient, please contact your local IT department to discuss any issues that you have launching the viewer.

You can use DICOM DIR file to import the images to another PACS system if required.

I need to send the information to a Medical Expert/Clinician for a second opinion how do I do that?

For the first 14 days you can forward the transaction to anyone you wish to, from the dashboard, click the Forward button and follow the wizard. See help guide for more information.

The screenshot shows the SECTRA dashboard interface. At the top, there is a navigation bar with the SECTRA logo, 'Home', 'Help', and a user profile for 'Nicky Humphries'. Below the navigation bar, there are tabs for 'Action Required (3)' and 'All (3)'. A 'Refresh' button is located on the right side of the table. The table has columns for Type, Dir., Date, Patient name, Institution, Messages, Status, and Actions. Three rows of data are visible, each with a 'Download' button highlighted by an orange box in the Actions column.

Type	Dir.	Date	Patient name	Institution	Messages	Status	Actions
Transfer	In	03/12/2018 18:44	Connor, Flake	North Tees Hos...	✉	Complete	View Download Forward Decline
Transfer	In	28/11/2018 10:34	Wallin, Anita	North Tees Hos...	✉	Complete	View Download Forward Decline
Transfer	In	27/11/2018 15:17	Wallin, Anita	North Tees Hos...	✉	Complete	View Download Forward Decline

When forwarding the images to a 3rd party, you will need to create their account within IEP Anyone so that they can receive the imaging. See the User guide under the Help menu for further information and screen shots.

You can forward the transaction 3 times. The recipient can download the images for viewing but not forward.

If you may need to send the images on to someone after 14 days, you will need to download the zip file and send that to the recipient. Either by burning to CD/DVD or sending via e-mail.

Any other queries

Contact the sender directly. You can find their details by clicking to expand and see the transaction details then hovering over their name. Their details are also on the e-mail you received.

The screenshot shows the SECTRA web application interface. At the top, there is a navigation bar with the SECTRA logo, 'Home', 'Help', and a user profile for 'Nicky Humphries'. Below this is a filter bar showing 'Action Required (3)' and 'All (3)'. A 'Refresh' button is located in the top right corner of the main content area.

The main content area displays a table of messages. The first message is highlighted, showing the following details:

Type	Dir.	Date	Patient name	Institution	Messages	Status	Actions
Transfer	In	03/12/2018 18:44	Connor, Flake	North Tees Hospital		Complete	View Download Forward Decline

Transaction details for the selected message:

- Transaction: NTEES000169
- Priority: NORMAL
- Status: Complete
- Expiry date: 17/12/2018 17:44
- Date of Birth: 02/04/1971
- Gender: Male
- Patient ID: SDH1088

The 'To' field shows 'Nicky Hu...' and the 'Contact' field shows 'Ms. Nicola...'. A popup window is open over the contact name, displaying the following details:

Ms. Nicola Humphries	
Email Address	nicola.humphries@sectra.com
Telephone no.	+447714082475
Department	Other
Job title	Other

Below the message list, there is a table of studies:
